Your entire business on one platform

Level up your company with the right app for every need

odoo

What is Odoo?

At Odoo, we're committed to helping businesses grow by giving every employee the right tool for the right job — all within a *single* platform. As a company, we're driven by a mission to make business software accessible, simple, and effective for organizations of all sizes.

15M+
Happy users

44k+
Applications in app store

19
Offices worldwide

35
Supported languages

175+
Countries globally

6k+
Partners worldwide

Odoo is a **complete suite of business applications** that covers a wide variety of scopes, and talk to each other in real time, including: CRM and sales, website/eCommerce, inventory and supply chain management, manufacturing, project management, accounting, procurement, and **so much more**.

Our unique value proposition

We have developed **80+ main apps** which are updated regularly. They run seamlessly together to deliver **integrated business management software** to EVERYONE.

Fully integrated

Odoo apps are natively integrated, allowing you to fully automate all your business processes and reap the savings and benefits.

Highly customizable

Odoo's highly customizable nature allows businesses to tailor the software to fit their specific needs and workflows.

Scalable

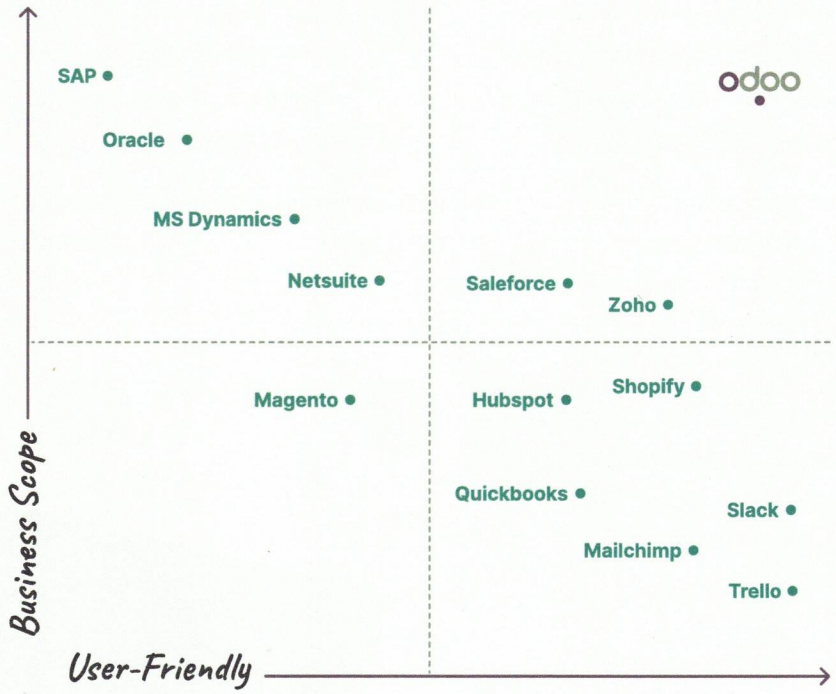

Odoo expands with your needs, handling up to 300,000 users per database and unlimited additional modules.

Our positioning

With regular annual releases, Odoo **evolves** much faster than any other solution. We provide our customers with **blazingly fast** software that covers ALL business needs while offering an **extremely user-friendly** interface.

"We want to unleash companies' potential by empowering users with tools that actually WORK and TALK to each other."

- **Fabien Pinckaers**, Founder

One need, one app

Hosting

Odoo Online

SaaS
(Software as a Service)

Odoo Online is a SaaS model where customers **access the software through the internet**. In a few seconds and a couple of clicks, your cloud instance will be ready to use anywhere and at any time.

Odoo.sh

PaaS
(Platform as a Service)

Odoo.sh is a full-stack Platform as a Service hosting option available on the cloud and out-of-the-box. It allows for **enhanced development and customization** while Odoo manages the infrastructure.

On-premise

Hosted locally
(Self-maintained)

With the On-premise option, you can **deploy Odoo on your own server** and set your hosting infrastructure yourself. We only recommend this option for customers with advanced technical knowledge.

Implementation

- Local presence
- Cloud or on-premise hosting
- Standard or tailor-made database
- Implementation is determined by the partner's methodology

- Cloud (SaaS or Odoo.sh) hosting
- Mainly standard base with possible development limitations
- Quickstart methodology used for implementation

Pricing

One app free

$0

for one app
unlimited users

- Odoo Online

Standard

$24.90

per user/month
for all apps

- Odoo Online

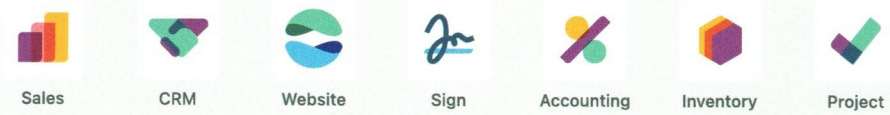

Custom

$49.00
